

WE OFFER A CONCEPT, NOT JUST A PRODUCT
Manufacturers of Elegant Hardwood Mouldings & Woodcarvings

TERMS | Credit must be established through our credit department first. **Hard copy P.O. must be faxed. Phone orders not accepted!**

IN-STOCK PRODUCTS | Our complete line of hardwood mouldings is In-Stock in Poplar for prompt shipment. Red Oak mouldings are In-Stock in selected profiles and are noted per profile. Our Authentic Hand-Carved® woodcarvings and Mantels are In-Stock in Lindenwood, and our Adornments™ are In-Stock in American Maple and Cherry. Resins show pricing if molds have been made. Unpriced resins indicate that an original mold has not yet been created, and customer will be subject to the mold charge. LCD's are priced as units, but identified and shipped as individual mouldings in random long lengths.

SPECIFIED LENGTHS | There is an upcharge for specified lengths. The customer also pays for additional footage needed to pull specified-length orders. See specifications under each moulding category. Please see expanded version of specified-lengths policy on page PL13.

RETURNS | Stock mouldings cannot be returned without prior approval. Call for an RGA number and clearly mark the outside of package(s) with that number. Mouldings will not be credited that are (1) marked on, (2) modified in any way, (3) exposed to excessive sun or moisture, (4) have sheetrock mud, primer, stain or job-site damage. For stock mouldings to receive credit, mouldings must be in resalable condition. Returns are F.O.B. buyer and are subject to a 20% restocking charge. Loose mouldings will be accepted only if they are 8' or longer, unless in original plastic covering. No returns allowed after 60 days from date of invoice. After 60 days, if the return is allowed at White River's discretion, the restocking charge will increase by 10% per month. White River has the right to refuse any return. All carvings must be in original packaging or still carded with seal unbroken. White River ABSOLUTELY will not accept carded carvings that have been opened. See return policy on the back of this price list.

FREIGHT CHARGES | All items shown are stock items, shipped F.O.B. from our manufacturing and warehouse facilities in Fayetteville, Arkansas. Our minimum LTL charge is \$100 and the minimum FedEx charge is \$15. There is no minimum order. Remember to take into consideration minimum freight and specified-length charges, especially for small FedEx orders. For **Residential LTL Deliveries**, there is an additional **\$86 freight charge, \$45 call charge** and a **lift gate charge** based on the weight of the order. White River must receive a **signed authorization** for Residential and Lift Gate Estimated Charges. White River will estimate freight charges as accurately as possible, but customers are responsible for final freight charges. Orders may be shipped via FedEx Ground if lengths are 8' or shorter. An additional **\$10 charge will apply to FedEx Residential Deliveries**.

FREIGHT RESIN ORDERS | All resin orders will have freight charges added to the invoice. Resin Orders ship directly to the customer and do not ship with other orders coming from Fayetteville.

WARRANTY | White River's hardwood mouldings are manufactured from clear, kiln-dried, hardwood lumber. All lumber is NHLA graded and dried to 6-8% moisture content. Our hardwood mouldings are produced from lumber that is 65% 12'-16' lengths, allowing us to produce stock mouldings in long lengths (overall 3'-16'). Our hardwood mouldings are precision machined with Weinig Moulders using Weinig Knife Tooling.

CUSTOM MOULDINGS | Custom mouldings involve modification of stock moulding, other wood species, restoration millwork and tooling for new patterns. All tooling is done on-site. Custom mouldings require a deposit and are non-returnable. Please state lineal footage per profile, species and random or specified lengths. Specified lengths are considerably higher and take longer. We also manufacture radius casing, crowns and other profiles from our various collections. Please request a quote.

CUSTOM DESIGN SERVICES | Please call us with any design questions and we will be glad to help you. Our staff can help you detail your entire job. Please see page PL12 for more information.

Expanded company policy statement on back page. **All prices are National List Prices per foot in US Dollars. For actual pricing, contact your Authorized White River™ Distributor or Dealer. Prices subject to change.**

Pricing errors or omissions on this list are superseded by actual manufacturer's prices.

THE CLASSICAL ORDERS

- Made-to-Order per job.
- Poplar priced per LF, random length long.
- LCD's comprised of custom production and In-Stock profiles.
- Minimum Orders Allowed: LCD's 100LF; Profiles individually 200LF.
- Specifying lengths subject to a 20-30% upcharge.
- Resin quotes based on specification and may be subject to mold charges.

PRICE LIST

POLICY AND SERVICES

DESIGN SERVICES I

Level 1 No Charge Design Assistance (In-House Designers):

Moulding & Carving Specification – Designers may give suggestions over the phone, by fax or e-mail. Any moulding and/or carving combination suggested may be sketched by hand or computer drafted. The quickest and most effective way to depict the concept will be used. These concepts can include, but are not limited to, the following:

*Crown *Base *Casing *Chairrail *Panel Moulding *Mantels *Ceiling Designs *Cabinetry *Furniture

(Mantel, Ceiling, Cabinetry, and Furniture drawings will not necessarily reflect the customer's specific dimensions.)

Level 2 Billable Design Assistance (In-House Designers):

Elevations, Reflected Ceiling Plans, Perspective Drawings & Section Details – Designers may produce drawings specific to a customer's space/dimensions. These elevations and/or perspectives are subject to a design fee. This charge is necessary due to the extended amount of time needed to produce detailed specification drawings.

Drawing Time will be billed to the customer at \$75 per hour.

Level 3 Billable Design Assistance (In-House Millwork Design Specialist):

Room-by-Room Specification – Designer will take architectural plans and create a detail sheet per room. The detail sheet will feature suggested build-ups for all the applications the customer requires for the room. An hourly fee will be charged for design time. The detail sheet will show portions of the proposed mouldings and carvings, not full wall/ceiling elevations and perspectives. An estimated millwork cost will be given per room.

Consultation, Drawing and Estimating Time will be billed to the customer at \$75 per hour.

Level 4 Billable Design Assistance (Jobsite Millwork Design Specialist):

Total Millwork Package Design – Designer and customer will determine architectural period and style as well as discuss the customer's likes and dislikes. A walk-through of the jobsite will be done and field measurements will be taken. Approximate moulding proportions and scale relative to the customer's interior space is evaluated. The designer then takes this information and begins the drawing and design phase of the project. The designer creates perspective and elevation drawings as well as cut-through section details. These drawings are typically done by hand but may also be computer drafted. Once the customer approves the drawings, the ordering phase begins. The designer will be available for consultation throughout the project, and will visit the jobsite as needed until the project is complete.

Customer will be responsible for all costs incurred while visiting the jobsite (Plane ticket, lodging, meals, car rental, etc).

Travel, Consultation and Drawing Time will be billed to the customer at \$75 per hour, per person.

Billing Drawing Time will be billed through a White River distributor or dealer (direct dealers only) at a design fee of \$75 per hour. White River requests the distributor/dealer to pass this rate through to the client. White River will estimate approximate design hours prior to beginning the project.

POLICY FOR CUSTOM QUOTES I

Quotes are based on information given.

The customer must give us the species needed, footage or pieces required, and the product they need.

EXAMPLE: 100' CR67 Mahogany

- Any change or reduction in overall quantities, or lengths specified, will change the price of the quote. For example, if we quote 100' and the customer sends in a P.O. for only 50' of moulding, it will need to be re-quoted. Or if we quote random lengths and the customer orders specified lengths, such as 10-10' pieces, that will also be subject to a re-quote.
- Quotes are always based on Random Long Lengths (RLL), unless specified lengths are requested. If lengths are specified, we must know what lengths specifically!
- To honor pricing of original quote, P.O.'s must be for at least the quantity of items originally quoted.
- Quotes reflect price per foot or per piece and will also show machine set-up charges.

Do not take items that were quoted together and send in separate P.O.'s for them.

- Quotes are assumed to be for one PO, so all items ordered must be listed on a single PO. For example, requesting a quote for 10 items, but only ordering only 2 is subject to a re-quote.

Pricing is always NET pricing, unless otherwise noted.

- Do not take an additional discount off quoted price, unless specifically instructed by your Dealer.

Typical lead times for custom mouldings are 2-5 weeks.

- Specified Lengths (SL) can add 1-2 additional weeks to the lead time, as we may have to bring in lengths not currently in inventory. On smaller orders, we must work with lengths we have on hand.

Custom moulding orders are subject up to a 20% overrun that will be charged to the customer.

- If we do not have specified lengths in stock to fill an order, we will pull longer lengths in inventory to fill the order. The customer's account will be charged for the overage up to 10% for random lengths or 20% for specified lengths. White River tries to keep overages to a minimum, but they do happen.

There is an 8' minimum for custom lineal runs.

- Please keep in mind that pricing is based on footage; the more footage requested, the better the price.

Always order enough product to complete the job.

- If additional mouldings or carvings are needed, the original pricing cannot be honored. It will be treated as a new quote and priced accordingly by footage needed. When figuring lineal footage needed, use actual lineal footage plus a 20-30% waste factor to match repeats and to cut to installed lengths. Cutting loss varies and must be considered by customer.

When placing a P.O. for custom work, simply return a copy of the quote we provided with your P.O. Custom knife and/or custom die charges will apply when producing new, non-stock moulding designs. White River produces its own knives in-house. We can enlarge a profile or do restoration or renovation work for your jobs.

SPECIFIED-LENGTHS POLICY FOR MON REALE®, EMBOSSED & TRADITIONAL MOULDINGS I

White River hardwood mouldings are produced from lumber that is 65% 12'-16' lengths, allowing us to produce stock mouldings in long lengths (overall 3'-16'). Our hardwood mouldings are precision machined with Weinig Moulders using Weinig Knife Tooling.

There is an upcharge for specified lengths. The customer also pays for additional footage (overpull) needed to pull specified lengths. Upcharges by category are shown per sections. It is not our policy to run specified lengths on stock items when there is standing inventory. Customer will be notified if a specified length cannot be pulled from in-stock mouldings, per the policy, so that they can match their orders to current available lengths.

15' & 16' Policy for Mon Reale®, Ornamentally Embossed™ & Traditional Mouldings

Because 15' - 16' lengths are considered premium, there is a 30% upcharge. These will be keyed in under a separate line item. Specified lengths are subject to that length being available in current inventory. We do not set up and run specified lengths when we have standing inventory. Processing specified-length orders requires opening bundles to pull those lengths. If lengths are not available, we pull the longer lengths required to fill the order. The moulding is then tallied and bundled for shipping. The extra moulding that has been pulled has to be retallied, bundled and restocked. This is a time-consuming process. Our standard 30% upcharge is enough to cover the labor to reasonably pull the desired lengths, not to cover the additional footage needed to get the order. A reasonable attempt will be made to pull the order to desired lengths, but overages of an additional 10-20% may occur. If extra footage exceeds 20%, we will call for approval.

Tallying Policy

This industry-standard policy will allow customers to correctly receive the stock that is pulled to meet their orders. All mouldings are tallied to the nearest foot. For example, if the actual length is 11'5", the tallied length is 11'. If the actual length is 11'7", the tallied length is 12'. If the actual length is 11'6", the tallied length is 11'.

FedEx Orders

Specified lengths on FedEx orders are subject to an upcharge of 20% plus additional LF needed to pull the order. Many orders with FedEx piece counts are exceeding the cost to ship LTL. To FedEx five bundles can be the same as a \$100 LTL charge. Many of the truck lines we use to ship LTL have shipping schedules within a day of regular FedEx ground.

PRICE LIST

POLICY AND SERVICES

Examples:

The following example would be subject to specified-length charges: 3 pc 8' CA37POP. The following example is NOT subject to specified-length charges: 24' CA37POP, ship FedEx. This order will be pulled random length with no upcharge. Normally, we will ship 6' - 8' lengths to fill this order.

PROS OF RANDOM LENGTHS

1. Shortens lead time
2. Available from current inventory
3. Long lengths
4. Best price (save 20-30%)

CONS OF SPECIFIED LENGTHS

1. Will delay shipment of your order
2. Length may not be available from current inventory
3. Unknown increased cost due to overpull

PROS OF SPECIFIED LENGTHS

1. On small jobs or repetitive length use application, it best fits the customer's needs the first time.

METALWOOD™ FINISHES FOR AUTHENTIC HAND-CARVED® WOODCARVINGS I

All potential orders are subject to a current quote based on job specifications and market conditions.

How to Order Metalwood™ Finished Mouldings and Woodcarvings:

1. Select the moulding(s) or woodcarving(s) to be finished. Note that all specified-length upcharges still apply to prefinished mouldings.
2. Select a finish (i.e. bronze, copper, etc.)
3. Call for a quote and if your net total for the Metalwood™ finishing is less than \$500, more items will need to be added to meet that minimum (or pay the minimum).
4. White River must have a signed Finish-Approval Agreement on file in order to begin the prefinishing process. A deposit may be required.
5. Typical leadtime is 5-6 weeks, but leadtime may vary depending on finish selected or size of order.
6. When orders are received, they should be opened carefully and inspected for transit damage. It is the buyer's responsibility to inspect the shipment immediately upon receipt and file appropriate freight claims with the carrier.

WARRANTIES

For complete touch-up and warranty information, please call your White River Sales Professional.

SHIPPING AND FREIGHT POLICY I

White River maintains an extensive inventory of all mouldings and hand-carved items shown in the catalogs and over 95% of orders received are able to ship complete within a reasonable timeframe. It is the objective of White River to ship orders under the following policy:

- Prompt Shipment - Normal orders of a reasonable size that are complete with no back-orders will be shipped within 1-4 calendar days unless expedited air shipment is requested.
- NOTE: Normal refers to orders for random length material from on-hand inventory.
- White River must receive notification at the time an order is placed if there is a firm delivery date requirement.

Orders for Out-of-Stock Items

- On normal orders that have items in production or need incoming hand-carvings, White River will require a 14 to 21 calendar day allowance (weekends included) to complete production, fill order, and ship order complete. The longer lead-time will apply to orders for the following products: Products produced from thicker stock, Mon Reale® mouldings, applied dentil or complex profiles that require multiple runs.

Specified Length, Non-Stock Items and Unusually Large Orders

- For any order that contains a line item with one of the following characteristics, White River may require a 4-6 week allowance to fill this order and ship complete:
 - Specified length not available from stock on hand
 - Unusually large order not available from stock on hand
 - Non-stock thickness, species, size or profile

- Note that specifying any length, especially 14' to 16', may significantly delay order shipment since those longer lengths only make up a fraction of the entire inventory. Due to the number of moulding profiles stocked by White River, at any given time numerous bins do not have 14' to 16' lengths and the customer must wait for a future production run. It is the policy of White River to run production only when stocking quantities are needed, NOT when specified lengths are not in current stock. Customers may consider modifying their order by switching to a length that is available in lieu of a potential 8-10 week lead-time, or occasionally longer, for the next production run. Please refer to the Specified Length Policy on page PL13 of this price list for more detail.

FOB Terms and Freight Policy

- All orders are shipped FOB (Freight on Board) Origin, meaning that White River maintains responsibility for the product only until it is received by the carrier at the White River loading dock.
- All orders are shipped either freight collect or freight prepaid and billed.
- Please refer to the Return Policy on the back page of the Price List for more detail regarding damage in transit.

Fed Ex Shipments

- Moulding orders may ship via FedEx with the following considerations:
 - Lengths must be 9' or shorter for FedEx Air, and lengths must be 8' or shorter for FedEx Ground
 - Depending upon the size of the order, the specified length upcharge may exceed the cost to ship via LTL
 - An additional \$10.00 charge will apply to FedEx Residential Deliveries

Estimated Freight on Acknowledgement

- White River utilizes state of the art computer-generated freight quotes. However, due to the number of variables that ultimately determine the freight costs, FREIGHT CHARGES ARE ESTIMATED until an order is shipped and the actual freight charges are calculated. Customers are responsible for final freight charges.

Orders Shipped Directly to Customers

- To minimize the handling of material and freight charges, White River can drop-ship orders directly to the end user.
- When White River receives an order that is to be shipped directly to a customer, the order will be entered as a ship complete order.
- White River strives to ship all orders complete and in a timely manner. However, if an account requests shipment of a partial order and back order, the account will be responsible for the freight charges for both the partial shipment and the back order.

Residential Delivery Charges on LTL Orders – Residences, Home/Cabinet Businesses

- The following charges will apply for Residential LTL Deliveries:
 - Standard freight charges
 - Call Charge \$45.00 - contact and set up delivery
 - Residential Delivery Charge \$86.00
 - Lift Gate Charge (Estimated based on the weight of the order)
- Account is responsible for informing White River of a Residential Delivery.
- When a PO is placed with White River for a Residential Delivery, a White River Territory Manager will contact Account to confirm Residential Delivery Charges.
- White River must receive signed authorization for Residential and Lift Gate Estimated Charges.

NOTE: White River will estimate residential delivery freight as accurately as possible, however customers are responsible for all final charges.

International Shipments

- All international shipments are required to have heat-treated pallets. Due to order packaging variations, these costs will be estimated at the time an order is received by White River:
 - Moulding pallets at \$75.00 each
 - Carving pallets at \$25.00 each
 - Customs charges, if applicable

PRICE LIST

POLICY AND SERVICES

Customers are responsible for all final charges.

- White River will ship international orders only to business addresses that have appropriate loading docks.
- If a domestic order is needed by a drop-dead date for an export shipment, White River must be notified when the order is placed. White River will respond with a confirmation of shipping date based on product availability.

RETURN POLICY I

1. Our terms of sale are F.O.B. our factory. The responsibility for damage in transit is the carrier's, whether it is visible or concealed damage.
2. Inspect your shipment immediately. Insist that visible damages be indicated on your copy of the freight bill.
3. Open boxes within 15 days of delivery, inspect for concealed damages and report any discrepancies. No adjustments will be made for discrepancies not reported within 15 days of receipt.
4. In case of damage, notify the delivering carrier immediately, requesting that inspection be made. Place a phone call to the delivery carrier and confirm with a written report, holding a copy of the request for claim purposes.
5. We take every precaution to ensure safe arrival, but our responsibility ceases when the shipment is turned over to the carrier.
6. Claims of damages must be made by you to the carrier within 15 days of receipt of delivery.

Return Goods

1. Do not return any product without our authorization.
2. Call Customer Service and obtain a Return Goods Authorization (RGA#). We will fax you a shipping label that **MUST** be used.
3. Returned products must have packaging equal to original factory packaging (with adequate protective padding material and cardboard securely fastened.) White River **WILL NOT** be responsible for damage incurred because of insufficient packaging.
4. Special Order and custom-manufactured items cannot be returned.
5. Return merchandise will not be accepted by us from the carrier unless it is returned freight prepaid within 15 days of the return authorization date. Packages must be clearly marked with the RGA number.

We DO NOT guarantee safe delivery.
